ENVIRONMENTAL FACTS

Provided by Slade 6th Graders

- **Around 27,000 trees are cut down each day just to produce toilet paper.**
- **There are more microplastics in Earth's oceans than stars in the Milky Way.**
- **An estimated 1,800 gallons of water go into a single pound of beef.**
- **By 2050, there will be more plastic in waters than fish.**
- **In the U.S., more than 80 billion cardboard boxes are used every year.**

REDUCE, REUSE, RECYCLE, RESPECT CREATION

As part of our Green School Initiative, students in grades Pk4-8 will participate in a **No-Waste Lunch Challenge on Earth Day, Wednesday April, 22nd**. Students are encouraged to bring lunches with minimal packaging, using reusable containers and sustainable food choices.

Leading up to the event, students will learn about food waste and sustainability. On Challenge day some grade levels will measure how much waste each grade produces to see the impact of our efforts.

Thank you for helping your child make environmentally friendly choices!
