We ask that you exercise patience and follow all directions of the adults and safeties who are on the lot each day. When in a drop-off lane, drivers should never pull out and go around a car that is in front of them. Likewise, during afternoon dismissal, drivers must wait in their respective lanes and spaces until directed to move. Safety is everyone's responsibility.

**Pets in the Parking Lot:** Please leave your pets at home when dropping off or picking up your children. Some children have become frightened upon seeing the animals and others have pet-related allergies. If you do bring your pet with you, it must remain in your vehicle. Thank you for your cooperation!

**Thank you for attending the HASA General meeting!** We would especially like to thank Mrs. Katie Dragos and Dr. Kemper Steffe from Annapolis Pediatrics for sharing their expertise regarding child nutrition. We hope you gained a few new ideas for your children.

Maryland Association for Environmental  
& Outdoor Education

**For Immediate Release**

## **The Maryland Association for Environmental and Outdoor Education Announces 2022 Maryland Green School Awards**

### **MAEOE Certifies Monsignor Slade Catholic School as Maryland Green School**

Baltimore, Maryland – (April 22, 2022) – The Maryland Association for Environmental and Outdoor Education (MAEOE) is pleased to announce that Monsignor Slade Catholic School has been certified as a 2022 Maryland Green School. Maryland Green Schools are part of a national and international community of sustainable green schools. Our students are becoming better stewards of our Earth's resources and developing a better understanding of their own local environment. There are 680 active Maryland Green Schools, 34% of all Maryland schools.

While schools returned to in-person classes in September 2021, extracurricular activities were limited during the first half of the year. Due to Covid-19 health precautions, partners and volunteers could not support teachers on site with environmental education and sustainable school actions such as school gardens, installations of projects and composting in the cafeteria. Despite these challenges, teachers and students continued with school greening efforts.

Over the past two years, our school has demonstrated and documented a continuous effort to integrate sustainable environmental management practices, environmental education curriculum, professional development opportunities, and community engagement into our daily operations. This award signifies that our school has made a commitment to developing stewards of the earth and reducing the environmental impact of our school.

“As young people are increasingly aware of climate change, we are inspired by their commitment to action and resolve to do their part to find solutions,” said Laura Johnson Collard, MAEOE executive director. “MAEOE welcomes the 16 new Maryland Green Schools and looks forward to seeing the students share their passion for the environment with their families and friends. As influencers, they can encourage others to recycle, plant vegetables and native plants and be more mindful of simple steps like turning off unnecessary lights.”

MAEOE will celebrate with Green Schools, Green Centers and schools that are interested in knowing more about the program at the Annual Maryland Green School Youth Summit on May 26, 2022, at Sandy Point State Park in Annapolis.

**About MAEOE:** MAEOE is a non-profit organization. MAEOE's mission is to encourage, engage and empower the community to understand, responsibly use and promote the natural world. MAEOE's Maryland Green School program began in 1999. For a complete listing of Green Schools and Green Centers visit [www.maeoe.org](http://www.maeoe.org).
